

WEB SITES FOR BUTTERFLIES, BIRDS AND PLANTS IN YOUR AREA

www.audubon.org/native-plants/

Type in your zip code and this site will generate a list of native plants in your area to attract birds

<http://ebird.org/content/ebird>

Record your bird observations and generate a list of birds in your location. A new feature prepares an illustrated checklist of birds with comments, video and audio of birders' explorations.

www.feederwatch.org

An interactive site of common feeder birds in your area — if you select "Northeast" the site will generate a list of common birds at your feeder along with types of feeders they prefer, and foods that they eat.

<http://content.yardmap.org>

Sign up for free and create an interactive map of your yard. Your map and site will become part of a national database. You can add items like trees, shrubs, flowers, brush piles, bird feeders, bird baths and other items to your site.
